ESNM encourages you to register online for the IBC – C Programme 2014 by March 28 ! It is an international programme with two grants of € 40,000 to focus on three key research areas in IBS-C: epidemiology, diagnosis and treatment.
Please click here for more information !

The European Union has approved funding of an Initial Training Network (ITN) NeuroGut. Initial Training Networks (ITNs) of the EU are educational programs for doctoral students in specializes areas that have received insufficient representation in conventional academic curricula because of their borderline existence between different specialties. The project will start with a kick-off meeting, February, 22, 2014 in Berlin, Germany. Please click here for more information !
