

Programme Overview

www.fnm2018.org

Thursday August 30, 2018

08:30-10:30	<p>PL-1 One hundred years of peristalsis <i>Chairs: John Furness; Jan Huizinga</i> From Trendelenburg to spatiotemporal maps <i>Marcello Costa, Australia</i> Key mediators of peristalsis: pharmacological implications <i>Terence Smith, USA</i> Relevance of disordered motility in gut diseases <i>Michael Schemann, Germany</i></p>		
10:30-11:00	Coffee Break		
11:00-12:30	<p>PL-2 Advances in achalasia <i>Chairs: John Pandolfino; Sabine Roman</i> Pathophysiology of achalasia <i>Guy Boeckxstaens, Belgium</i> Treatment of achalasia <i>Arjan Bredenoord, Netherlands</i></p>		
12:30-14:00	Lunch Break		
14:00-15:30	<p>PA-1A Epithelial biology in NGM <i>Chairs: Shin Fukudo; René van den Wijngaard</i> Mucosal signaling: role of mucosal barrier and immune dysregulation <i>Åsa Keita, Sweden</i> Barrier dysfunction in post-infectious IBS <i>Madhusudan Grover, USA</i></p>	<p>PA-1B Nausea <i>Chairs: Paul Enck; Kwang Jae Lee</i> Central processing of nausea <i>Braden Kuo, USA</i> Mechanism of nausea <i>Kirsteen Browning, USA</i></p>	<p>PA-1C Pediatric functional GI and motility disorders <i>Chairs: Marc Benninga; Maura Corsetti</i> Rome IV criteria <i>Annamaria Staiano, Italy</i> IBS from young adult to old age <i>Max Schmulson, Mexico</i></p>
15:30-16:00	Coffee Break		
16:00-17:30	<p>PA-2A Neurodevelopment <i>Chairs: Gerry Mawe; John Furness</i> Neurodevelopmental aspects of gut dysfunction <i>Michel Neunlist, France</i> Stem cells: how to build up an enteric nervous system <i>Nikhil Thapar, UK</i></p>	<p>PA-2B Mechanisms and treatment of gas and bloating <i>Chairs: Lin Chang; Albis Hani</i> Role of methane in gut physiology and symptom generation <i>Hyojin Park, Korea</i> Bloating and distention <i>Carolina Malagelada, Spain</i></p>	<p>PA-2C GERD <i>Chairs: André Smout; Justin Wu</i> New diagnostic options <i>John Pandolfino, USA</i> Management of refractory GERD <i>Xiao-Hua Hou, China</i></p>

Programme Overview

www.fnm2018.org

Friday August 31, 2018

08:30-10:30	<p>PA-3A Optogenetic control of gut function <i>Chairs: Alberto Travagli; David Grundy</i> Optogenetic activation of enteric pathways <i>Lincon Stamp, Australia</i> Optogenetic induction of gut propulsion <i>Nick Spencer, Australia</i> Optogenetic manipulation of vagal pathways <i>Rui Chang, USA</i></p>	<p>PA-3B Functional aspects of host-microbiome interactions <i>Chairs: John Cryan; Giovanni Barbara</i> Bacterial dysbiosis <i>Shin Fukudo, Japan</i> Fungal dysbiosis <i>René van den Wijngaard, Netherlands</i> Host-microbiome interactions <i>Purna Kashyap, USA</i></p>	<p>PA-3C Therapeutic advances in FGIDs <i>Chairs: William Chey; Guy Boeckxstaens</i> Psychological interventions <i>Jeff Lackner, USA</i> Pharmacological treatment of IBS and constipation <i>Maura Corsetti, UK</i> Complementary / alternative treatments <i>Justin Wu, Hong Kong</i></p>
10:30-11:00	Coffee Break		
11:00-12:30	<p>PA-4A Chemosensation and EC cells <i>Chairs: Ashley Blackshaw; Arthur Beyder</i> Taste receptors and signaling in the gut <i>Catia Sternini, USA</i> Factors controlling EC cell triggering <i>Damien Keating, Australia</i></p>	<p>PA-4B Infection, inflammation and FGIDs <i>Chairs: Madhu Grover; José Maria Remes-Troche</i> H. pylori and functional dyspepsia <i>Hiroto Miwa, Japan</i> Post-infectious IBS <i>Giovanni Barbara, Italy</i></p>	<p>PA-4C Food components triggering GI symptoms <i>Chairs: Sutep Gonlachanvit; Magnus Simren</i> FODMAPs <i>William Chey, USA</i> Gluten <i>Elena Verdú, Canada</i></p>
12:30-14:00	Lunch Break		
14:00-15:30	<p>PA-5A Satiety regulation and obesity <i>Chairs: Christine Feinle-Bisset; Jan Tack</i> Obesity, enteric nervous system and microbiome <i>Shanthi Srinivasan, USA</i> Therapeutic targets in the modulation of satiety <i>Michael Camilleri, USA</i></p>	<p>PA-5B Chronic intestinal pseudo-obstruction <i>Chairs: Sutep Gonlachanvit; Vincenzo Stanghellini</i> Molecular and cellular characteristics <i>Seung-Jae Myung, Korea</i> Clinical aspects and management <i>Roberto De Giorgio, Italy</i></p>	<p>PA-5C Integrated systems approach in IBS <i>Chairs: Joon Seong Lee; Mauro D'Amato</i> Genetics of IBS <i>Beate Niesler, Germany</i> Systems approach in IBS <i>Lin Chang, USA</i></p>
15:30-16:00	Coffee Break		
16:00-17:30	<p>PA-6A Sensory neuro-immune modulation and glial cells <i>Chairs: Nick Spencer; Jim Galligan</i> Neuro-immune modulation <i>Wouter de Jonge, Netherlands</i> Neuro-glia modulation <i>Pieter Vanden Berghe, Belgium</i></p>	<p>PA-6B Sex differences in FGIDs <i>Chairs: Beverly Greenwood - van Meerveld; Magnus Simren</i> Biological mechanisms <i>Muriel Larauche, USA</i> Clinical presentation <i>Nayoung Kim, Korea</i></p>	<p>PA-6C Functional dyspepsia and gastroparesis <i>Chairs: Vincenzo Stanghellini; Sanjiv Mahadeva</i> Functional dyspepsia <i>Jan Tack, Belgium</i> Gastroparesis <i>Gianrico Farrugia, USA</i></p>

Programme Overview

Saturday September 1, 2018

08:30-10:30	<p>PA-7A GI complications of neurological disease <i>Chairs: Kirsteen Browning; Albis Hani</i></p> <p>Multiple sclerosis <i>Gary Mawe, USA</i></p> <p>Autism <i>Kara Margolis, USA</i></p> <p>Parkinson's disease <i>R. Alberto Travagli, USA</i></p>	<p>PA-7B Visceral pain <i>Chairs: Qasim Aziz; Stephen Vanner</i></p> <p>Peripheral mechanisms of cross-organ sensitization <i>Stuart Brierley, Australia</i></p> <p>Central mechanisms of cross-organ sensitization <i>Beverley Greenwood-van Meerveld, USA</i></p> <p>Clinical aspects and treatment of visceral pain <i>Asbjørn Drewes, Denmark</i></p>	<p>PA-7C Dysphagia and eosinophilic esophagitis <i>Chairs: Arjan Bredenoord; Peter Kahrilas</i></p> <p>Evaluation of dysphagia <i>José Maria Remes-Troche, Mexico</i></p> <p>Diagnosis and assessment of EoE activity <i>Frank Zerbib, France</i></p> <p>Treatment of EoE <i>Sabine Roman, France</i></p>
10:30-11:00	Coffee Break		
11:00-12:30	<p>PL-3 Microbiome and gut-brain axis <i>Chairs: Oh Young Lee; Emeran Mayer</i></p> <p>Clinical relevance of the microbiome <i>Magnus Simren, Sweden</i></p> <p>Stress and the brain-gut axis <i>John Cryan, Ireland</i></p> <p>Treatment targeting the microbiome <i>Uday Ghoshal, India</i></p>
